WORK EXPERIENCE

front-end -developer

Ewerenet   2021 - 2024

"I have 3 years of experience in front-end development, where I've honed my skills in creating intuitive and visually appealing user interfaces. My expertise lies in HTML, CSS ,Tailwind css ,Bootstrap, and JavaScript, with a focus on responsive design I have experience with modern frameworks such as React.js and their capabilities to build dynamic web applications. Additionally, I'm proficient in using version control systems like Git and collaborating with design teams to translate mockups into interactive web experiences. My passion for staying updated with the latest trends and technologies in front-end development drives me to continuously improve and deliver high-quality solutions."
